

ARRIVA COSMETIC CENTER

is a skin rejuvenation clinic and facial cosmetic surgery center.

Arriva Cosmetic Center provides the professionalism, results and safety of medical treatments in the comfort and luxury of a spa atmosphere. The treatments offered at Arriva restore and rejuvenate your skin so that your outside reflects how you feel on the inside.

The skin rejuvenation treatments offered are gentle, non-toxic, and light to medium range peels. These treatments help stimulate, firm and tighten the skin. Excellent results-oriented home care products are offered to maintain skin in between treatments. The products used and sold at Arriva are medical grade and are combined to create a regimen exclusively for you.

Our estheticians, Olga Briseño, Beth Hunt and Veronica Briseño, are not only certified, but have over 30 years of combined experience. In addition, Cindy Martin, a registered nurse who applies Arriva's permanent cosmetics, has over 15 years of experience.

The clinic also offers cosmetic eyelid surgery and laser treatments by Dr. Charles D. Rice and Dr. Craig D. Lewis. Dr. Rice earned his medical degree from Louisiana State University Medical Center, New Orleans and completed his ophthalmology residency at Wake Forest University in North Carolina. Dr. Lewis obtained his Doctor of Medicine from the University of Michigan Medical School.

CONSULTATION

NO CHARGE

Consultation includes review of history and skin analysis. An individualized program of products and treatments are then recommended in order to achieve the client's goals.

FACIALS

\$75

Facials are a relaxing 60 minute treatment ideal for the client who desires to have luminous, hydrated skin. The facial leaves the skin feeling and looking healthier. Ideal for all occasions when you desire a glowing appearance.

REJUVENATION PLUS

\$115

The gentle abrasive action of microdermabrasion preps the skin for better penetration of a peel or treatment with a mask. This exfoliation is beneficial to invigorate, relax, regenerate, and nourish the skin.

CHEMICAL PEELS

\$85-\$115

The use of topical alpha and beta hydroxy acids causes the regeneration of new skin cells. As a result of a chemical peel, the skin becomes lighter, tighter, and brighter. Ideal for dull, sluggish skin in need of refining. Recommended every 4-8 weeks.

LASER (DIO-LITE)

\$650

This treatment is for facial vessels. Lasers can safely and effectively treat facial spider veins. The vessels respond well to laser therapy due to their small size, red coloration, and superficial location.

ARRIVA MICROPEEL

This skin peel treats skin conditions associated with aging and an active lifestyle. Skin conditions such as: wrinkles, scars, acne scars, and keratosis have been successfully treated with this peel. The procedure is individually tailored to the nature of your skin with three treatment levels available.

4 Microns	\$200
10 Microns	\$350
20 Microns	\$450

PHOTO FACIAL WITH PULSED LIGHT

This treatment uses gentle pulses of light to help remove age spots, sun damage, and vascular irregularities. The final result is a more even toned, youthful appearance. Most clients achieve their desired results in only 3 to 5 sessions. A complimentary Microdermabrasion is performed a week after the first Photo Facial treatment.

Full Face (Package of Three)	\$990
Full Face (One Treatment)	\$350
Spot Treat Face	\$150
Neck and Chest	\$300
Hands	\$200
Hands and Arms	\$400

COSMELAN DEPIGMENTATION FOR MELASMA WITH HOME CARE

\$1100

Dark spots, especially on the face and chest, are the greatest aesthetic concerns for most men and women. Only through treatment directly affecting the pigment formation process (melanin) is it possible to eliminate the dark spots and recover the skin's smoothness and luminosity.

LASER HAIR REMOVAL (5 to 6 treatments needed)

Lip/Chin	\$125 per treatment
Chin/Neck	\$125 per treatment
Underarm	\$125 per treatment
Bikini	\$125 per treatment

HOME CARE

When working to correct skin concerns, many skin types and conditions are very well served by an advanced cosmeceutical regimen in conjunction with professional treatments. Together, we will have more control over how quickly a client will see results in their skin.
